Accesso/Access

P IN/PADDOCK

A map snippet showing a road network. A green label 'HELIPUERTO' is placed on a road, with a small green arrow pointing to it. The map includes various road types and a small white rectangular object on the left.

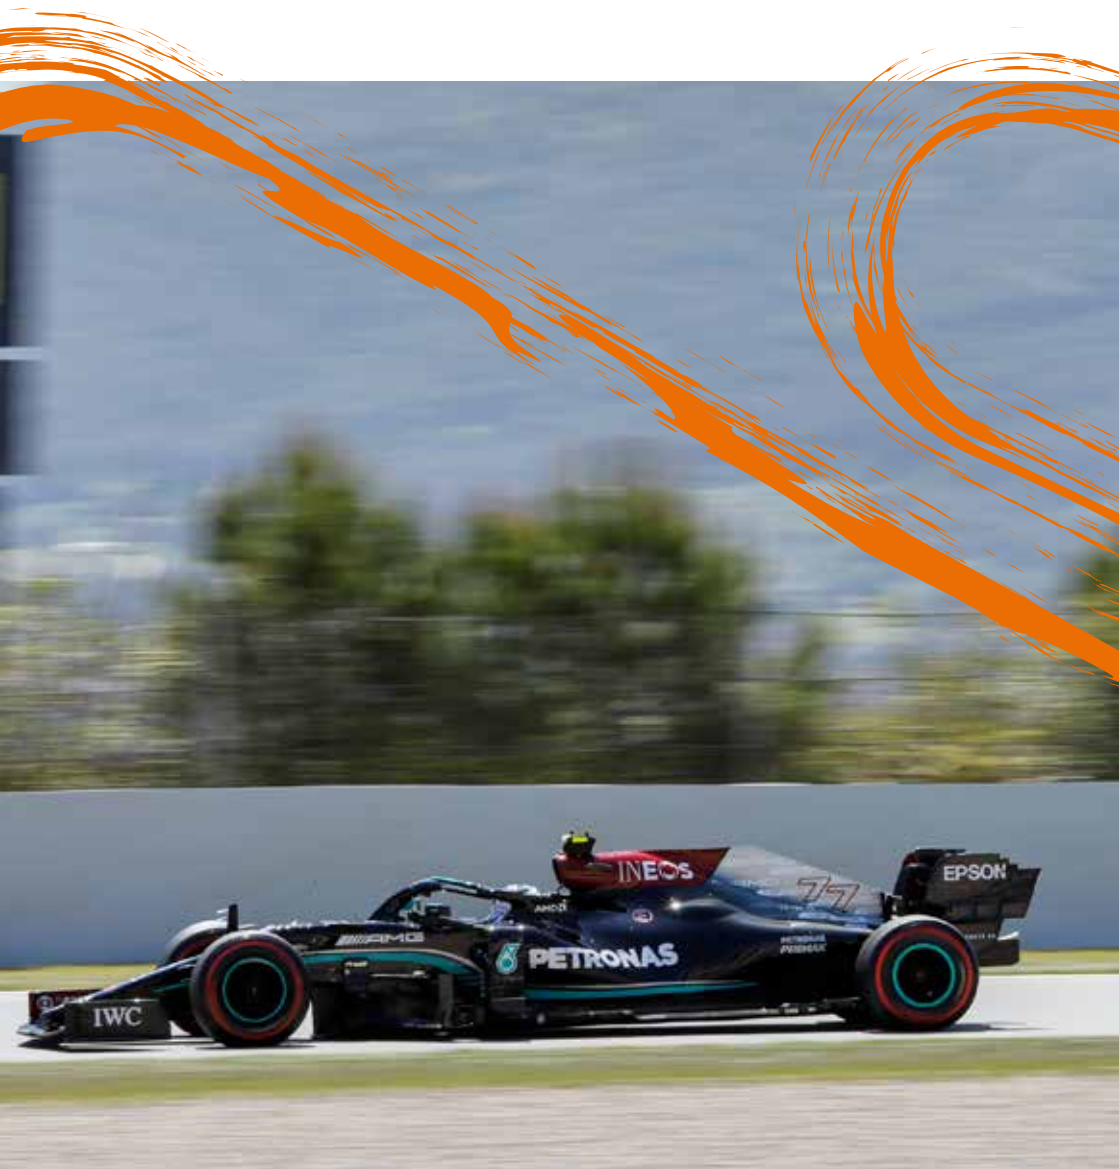

A map showing the location of Puerta de Oates 2. A green label 'GARDEN VILLAGE' is at the top left. A brown label 'PUERTA/OATES 2' is in the center. A dotted line runs horizontally across the map, and a solid line runs vertically on the right side.

Included when booking Montjuïc Club, Corporate Lounge and Suites for MOTOGP™.

UN CIRCUITO SOSTENIBLE

El compromiso del Circuit con la sostenibilidad viene de lejos. Se abastece con energía de fuentes renovables, ha adoptado la economía circular en la gestión de residuos y tiene cuidado con su entorno forestal. Fue el primer circuito del mundo en obtener la certificación ISO 14001 de gestión ambiental (2008) y cuenta con la certificación ISO 20121:2013 de eventos sostenibles, así como con el distintivo Biosphere. Actualmente trabaja para renovar esta certificación, que pasara a llamarse Biosphere Sustainable Lifestyle.

Esta implicación con la conservación medioambiental ha estado premiada con diferentes premios internacionales como el *Premio FIM Environmental Award 2012, 2016 y 2019, o la Certificación Excelencia de la FIA desde 2015*. Además, el trabajo del trazado en materia de sostenibilidad a estado objeto de estudio y reconocimiento por parte del Comité Olímpico Internacional (COI).

El objetivo es hacer un paso más y convertir el Circuit de Barcelona-Catalunya en modelo y referencia mundial de sostenibilidad aplicada a este tipo de instalaciones.

A SUSTAINABLE CIRCUIT

The Circuit's commitment to sustainability comes from far away. It is supplied with energy from renewable sources, has adopted the circular economy in waste management and takes care of its forest environment. It was the first circuit in the world to obtain the ISO 14001 environmental management certification (2008) and has the ISO 20121:2013 certification for sustainable events, as well as the Biosphere label.

It is currently working to renew this certification, which will be renamed Biosphere Sustainable Lifestyle.

This commitment to environmental preservation has been rewarded with various international awards such as the *FIM Environmental Award 2012, 2016 and 2019, and the FIA Excellence Certification since 2015*. In addition, the track's work in terms of sustainability has been the subject of study and recognition by the International Olympic Committee (IOC).

The aim is to go one step further and turn Circuit de Barcelona-Catalunya into a model and a world benchmark for sustainability applied to this type of facilities.
